

## Get Used to Us

We're the ones  
normally modest  
who bare our breasts  
to suckle our child wherever

and no

don't ask us to go  
hide in the stinkin' restroom  
or under some blanket  
as if your delicate sensibilities  
might be offended  
at tits un-tasseled.

Get used to us.

This is how we survive--  
mammalian mothers  
nurturing.
